What is the brain doing in the sensorimotor theory?

11:30-12:00 **Martin Fultot**

To be a proper non-representational theory of perception, the sensorimotor approach must be a fully non-representational theory of behavior

12:00-12:30 **Nicholas Wilkinson & Giorgio Metta**

Bilateral mutual gain control, beamforming, and Being There

12:30-13:00 **Christopher L Buckley & Taro Toyoizumi**

The role of sensorimotor feedback in a brain state transition from passive to active processing

13:00---14:00 LUNCH

14:00-14:30 **Adrian Alsmith**

Structural affordances & the embodiment of bodily experience

14:30-15:00 **Anil Seth**

Predictive Perception of Sensorimotor Contingencies:

Explaining perceptual presence and its absence in synaesthesia

15:00-15:30 **Erik Myin, Karim Zahidi & Jan Degenaar**

Perceptual presence enacted: commentary on Seth's predictive processing theory of sensorimotor contingencies

15:30---16:00 COFFEE

16:00-16:30 **Fred Keijzer**

Searching for the roots of experience: Early nervous systems and the origins of the animal sensorimotor organization

16:30-17:00 **Dag Munk Lindemann & Oliver Kauffmann**

Attunement, habits, and knowing what to do

17:00-17:30 *Consciousness without inner models: **general discussion** (chair: Jan Degenaar)*

17:30---17:50 BREAK
